INFORMATION TO BE PLACED IN PATENT APPLICATION FILE

On March 3, 2008 a paper was received from the examiner who handled this application. Prosecution has been closed, with claims allowed, and the issue fee was paid on January 25, 2008. The paper from the examiner crosses out several references that were submitted in a disclosure statement that was filed April 4, 2004. This is not understood and is assumed to be a mistake. With an official action mailed December 15, 2006, the examiner acknowledged receipt and consideration of all items of prior art included in the applicant's disclosure statement. All items are acknowledged and properly initialed or signed by the examiner.

Having thus considered each item in the disclosure statement prior to issuing his first action on the claims, the examiner cannot now reverse this. Once the items of prior art have been considered, they cannot be "unconsidered".

Respectfully submitted,

A handwritten signature in black ink, appearing to read 'Thomas M. Freiburger', with a large, stylized flourish extending from the bottom right.
